British Government Fearful of Crisis in Relations With Arabs

By the Associated Press

LONDON, Jan. 29.—Britain's government worriedly eyed the Middle East today, fearful of a crisis in its relations with the Arab states.

Officials conceded that recent riots in Baghdad reflected a serious British miscalculation of popular Arab opinion. The riots were in protest against a revised British-Iraqi treaty of alliance.

Some informants said the British may try to retrieve lost ground by proposing slight modification of the treaty, which was signed January 15. It has not been ratified. The government of Premier Salih Bey el Jabur, which negotiated the revision, quit Tuesday.

The treaty would permit British troops to enter Iraq in event of war and would allow the British to use Iraq airfields.

Misjudgment Admitted.
 British officials said that even some Britons who had helped write the treaty acknowledged they had misjudged popular Arab opinion.

Normally, they said, there is little variance between the official Arab view and that of its people, but in Iraq a serious difference quickly became apparent.

There was some hope, however, that a new Iraq government might be formed which would be able to convince the people the treaty is in their best interests.

Foreign Secretary Bevin had expressed hope the British-Iraqi treaty would be one of a system of alliances to form a British-Arab bulwark against the spread of communism in the Middle East.

But the trigger-quick temper of the Arabian man-on-the-street provides a touchy problem.

An illustration of Arab nationalism was given in London yesterday by an unidentified Trans-Jordan official. He said:

"If the people of the Middle East had to choose between being Arabs under communism and being subjects of a foreign imperialism, whether British or American imperialism, unquestioningly they would select communism."

Soviet Reaction Given.
 "The British ought to have realized that after the Egyptian deadlock arose last year, but they did not. They proved they did not in the pact with Iraq. Until they get rid of the notion that they're dealing with a crowd of penniless coolies, they'll get nowhere in the Middle East."

A Moscow radio commentator heard in London gave the Soviet reaction to the Iraq question. The broadcast said the Arabs regard the treaty as a direct menace to national interests and an attempt "of the imperialists to continue their old colonial policy of enslavement of the peoples of Asia and Africa."

In Baghdad, former Premier Salih Bey el Jabur was reliably reported to have fled the city. A secret police informant said he had gone to Hilla, 60 miles south of Baghdad, to the tribes of his father-in-law. Crowds marched through Baghdad, crying for his head.

Formation of New Cabinet In Iraq Is Announced
 CAIRO, Egypt, Jan. 29 (P).—The Arab League announced today that it had been advised from Baghdad that a new Iraqi cabinet has been formed under the premiership of Mohamed el Sadr.

Such cabinet would succeed that of Salih Bey el Jabur, which resigned Tuesday following violent Iraqi resentment demonstrations against the revised British-Iraqi alliance treaty. Sadr was reported to have fled Baghdad to the village of Hilla. Crowds marched through Baghdad streets demanding his head.

The Arab League said its advisers from Baghdad described the new premier as a senator from the Iraqi Independent Party, formerly president of the Iraq Senate.

Palestine Plan Sabotage Laid to State Department
 LAKE SUCCESS, Jan. 29 (P).—Freda Kirchwey, editor of The Nation, said last night that the Palestine partition plan was being "sabotaged" by State Department representatives.

She called on President Truman to investigate the activities of the State Department's Middle Eastern division.

"I am certain," she said in a letter to the President, "that such an investigation will sustain the charge that your policy is being sabotaged by a division of the United States Government."

Miss Kirchwey also asked that the United States "urge the establishment by the U. N. of an international police force with all possible speed."

U. S. Soldiers Help Japs Gel \$1,760,000,000 Tax

TOKYO, Jan. 29.—Allied occupation officials are putting indirect pressure on Japanese to pay some \$1,760,000,000 in taxes. That is \$1,760,000,000 at the official 50-to-1 exchange rate.

Headquarters reported more than 50 military government teams throughout Japan are being reinforced and ordered to protect Japanese tax collectors, some of whom have been handled roughly in their attempts to collect.

A spokesman for the Japanese Finance Ministry complained: "It is difficult to collect 88,000,000,000 yen, especially in rural districts, from businessmen and farmers." The fiscal year ends March 31, at which time the tax bill will be even higher—200,000,000,000 yen.

FRESNO, CALIF.—SCENE OF FATAL PLANE CRASH—Hushed spectators watched as a search party probed for bodies in the smoldering wreckage of a DC-3 chartered airliner that crashed yesterday with 32 aboard in the Diablo Mountains of Western Fresno County. —AP Wirephoto.

CAA Probe Is Started As 32 Dead Are Taken From Fresno Wreck

By the Associated Press

FRESNO, Calif., Jan. 29.—The bodies of 32 persons who died when a chartered transport plane loaded with Mexican deportees crashed and burned yesterday were being brought out of Los Gatos Canyon today.

The Civil Aeronautics Authority early today began an investigation of the disaster which killed 28 Mexicans, three crew members and a United States Immigration Service guard. There were no survivors.

Witnesses said an engine fire apparently set one wing ablaze, the wing tore off and the DC-3 plunged in flames.

Saw Persons Jumping.
 Frank W. Johnson, foreman on a road work crew, said he saw persons falling or jumping before the flaming aircraft crashed.

The plane was operated by Airline Transport Carriers, Burbank, Calif., under charter to the immigration service.

Charles E. Sherman, president of the airline, said the plane had been purchased from surplus in 1946 and was virtually new.

Director Irving F. Wixon of the immigration service in San Francisco said the 28 Mexicans, including two women, were being flown from Oakland to the deportation center at El Centro, Calif., to be returned to Mexico. Some had entered the United States illegally and others had stayed beyond the length of their agricultural work contracts, he said. All were farm workers.

First Crash of Deportees.
 In Washington, the Justice Department said its Immigration Service had employed contract planes in the deportation of some 9,000 persons since October, 1946, and that the Fresno crash was the first accident to a plane carrying deportees. The department asserted that air transport "is never forced upon a deportee."

The department also told a reporter that "no liability attaches to the Government in connection with the Fresno accident."

"The contract flights are covered by insurance carried by the contractor," the department said. "The company in the current case carried more than \$1,000,000 of insurance on this particular flight."

New Boeing Stratocruiser Nears Completion of Tests

SEATTLE, Jan. 29.—A new version of the Boeing stratocruiser, which company officials said can carry a heavier load faster and farther than the older types, will be turned over to the Air Force as soon as flight tests can be completed.

The ship, the YC-97A, made a maiden flight of one hour and 13 minutes yesterday. Two others are under construction and will be placed in service by the Air Transport Command when completed.

The improved ship is 59 per cent more powerful than the similar XC-97 which crossed the continent nonstop in 1945 at an average speed of 383 miles per hour. It can carry more than 20 tons of cargo nonstop 3,300 miles.

Eisenhower to Become Grandfather in April

Gen. Eisenhower, retiring Army Chief of Staff, expects to become a grandfather soon.

Mrs. Eisenhower told an inquiring reporter yesterday that her daughter-in-law, wife of Capt. John Sheldon Doud Eisenhower, is expecting a child in April.

The young Eisenhowers—she is the former Barbara Jean Thompson, daughter of Col. and Mrs. Percy W. Thompson—were married last June at Fort Monroe. They are taking an apartment in New York where Capt. Eisenhower tomorrow begins a "refresher course" in English at Columbia University in preparation for assignment as instructor in English at West Point.

Mrs. Charrington Reaches London in Custody Fight

By the Associated Press

LONDON, Jan. 29.—Mrs. Marysly Montgomery-Charrington of Warrenton, Va., arrived last night to consult lawyers about the custody of her son Robin, 8, she said the boy was taken from her home in Virginia last December by her husband Robert.

She told reporters she had a verbal custody agreement with her husband under which Robin would spend nine months of each year with her.

Mrs. Montgomery-Charrington said her husband wrote from England that Robin had chickenpox. She said she believed the boy was in a nursing home at Winchester, Hampshire.

Start of Critical Phase In China Conflict Seen

By the Associated Press

SHANGHAI, Jan. 29.—Military observers expressed belief today that China has begun the most critical phase of its civil war in a struggle for medium-sized cities and towns flanking major centers of population.

On the result, they said, rests the outcome of the bitter conflict with the Chinese Communists.

Military observers predicted there would be no frontal battles for big cities. The war would be fought in the Tientsin-Tsingtao and Chefoo, all in government hands; that their fate would be decided in the current campaigns in the countryside.

On that basis, the Manchurian situation has taken a decided turn for the worse from the government standpoint with the loss of the key railroad of Sinitun, which dominates the western approaches to Mukden.

Funeral Ship, Being Towed Back to U. S., Sinks

By the Associated Press

BOSTON, Jan. 29.—The Army funeral ship Joseph V. Connolly went adrift from a tow line today off Cape Race, Newfoundland, and sank. The Coast Guard reported today. The ship, previously ravaged by fire, was under tow for New York.

The Coast Guard said the towing hawser slipped off a towing drum on the commercial tug Curb. Almost immediately the Connolly disappeared from the cutter's radar scope. The Curbnet was accompanying the Curb.

Earlier it was noted heavy seas were flooding the Connolly's after hatches. A whole gale was blowing and heavy snow squalls were prevailing when the Connolly disappeared, the Coast Guard said.

GPO Legion Post to Hear Griffiths Tomorrow

Past National Commander Paul H. Griffiths of the American Legion will address a meeting of the Legion's Government Printing Office Post No. 33 at 8 p.m. tomorrow at Harding Hall, in the printing office building.

Fort War II victory medals and American defense medals will be presented to post members by Public Printer A. E. Gienack, charter member of the post. Music will be furnished by the Marine Band.

De Valera Tells of Plans To Unite All Ireland

By the Associated Press

SLIGO, Eire, Jan. 29.—Prime Minister Eamon de Valera says he is ready to push for union of Eire and Northern Ireland if his government wins next month's elections.

Mr. De Valera said in a political speech last night that his plans for handling the Northern Ireland question are made. He promised that pressure of public opinion of the Irish race throughout the world would be concentrated on the question.

Public Parking Lots Urged for Bethesda

Montgomery County Commissioner Wesley I. Sauter today urged that public parking facilities be installed in the Bethesda business district.

Mr. Sauter said he favored a program in Bethesda similar to the one underway in Silver Spring, where several public parking lots have been acquired with the aid of an approximately \$750,000 bond issue. The issue is to be retired by a special tax levied on Silver Spring business properties.

The commissioner said he would discuss the proposal with the Bethesda Chamber of Commerce and would confer with the county legislative delegation. Special legislation was required for the parking lot bond issue in Silver Spring.

News Guild May Join Court Fight of ITU

The International Executive Board

of the American Newspaper Guild (CIG) will be asked to consider joining the court fight of the International Typographical Union (ITU) against injunctive procedures of the Taft-Hartley Act, Harry Martin, guild president, said last night.

Speaking at the annual meeting of the Washington Newspaper Guild in the Raleigh Hotel, Mr. Martin declared collective bargaining principles are "threatened with destruction" by the law. He accused Robert Denham, general counsel of the National Labor Relations Board, of "prejudging" a case by seeking an injunction against the ITU.

Mr. Denham, acting as prosecutor, as required by the law, has charged the ITU with unfair labor practices against members of the American Newspaper Publishers' Association. He has asked a Federal court injunction against the practices pending a decision by NLRB on the complaint. A hearing has been set for February 9 in Indianapolis.

Mr. Martin said the guild approved CIO opposition to a third political party at this time. He called Henry A. Wallace's presidential candidacy a "diservice to the cause of labor and liberalism."

The guild president said his union would seek election of candidates favoring union programs and would support the CIO Political Action Committee in this.

New officers of the Washington local were installed at the meeting. They are: William S. Pryor, Times-Herald, president; Chris Mathisen, Star, vice president; Ruth Gmeiner, United Press, secretary, and Milton Magruder, United Press, treasurer.

New Executive Board members are: Elsie Carper, Mary Jane Dempsey, Karl Hess, John McLeod, Philip H. Price, Willard Shelton and Dillard Stokes.

Poles Still Seek 600-Million Loan Despite Soviet Aid

By the Associated Press

WARSAW, Jan. 29.—A government spokesman said yesterday that Poland still hopes to borrow \$600,000,000 from the International Bank, despite her new trade pact with Russia.

The Polish-Russian trade treaty includes a \$450,000,000 medium term loan to Poland.

The spokesman said the more outside aid Poland received, the faster she would recover from the war. The Poles asked the International Bank last fall for a \$600,000,000 loan for reconstruction and modernization of industry. The request still is pending.

Russian aid has assured Poland of reaching the goals of its three-year economic recovery program, the spokesman told a news conference. The program extends through 1949.

Outlining the details of the commercial pact, the spokesman said Russia's promised deliveries of 200,000 tons of grain assured Poland of adequate bread supplies until the next harvest.

There were no political conditions attached to the trade treaty and Russian loan, he said. He added there was no military representation in the Polish trade mission.

Public Parking Lots Urged for Bethesda

Montgomery County Commissioner Wesley I. Sauter today urged that public parking facilities be installed in the Bethesda business district.

Mr. Sauter said he favored a program in Bethesda similar to the one underway in Silver Spring, where several public parking lots have been acquired with the aid of an approximately \$750,000 bond issue. The issue is to be retired by a special tax levied on Silver Spring business properties.

The commissioner said he would discuss the proposal with the Bethesda Chamber of Commerce and would confer with the county legislative delegation. Special legislation was required for the parking lot bond issue in Silver Spring.

Democrats Will Fight For Rent Control and Homes, Pepper Says

By the Associated Press

Senator Pepper, Democrat, of Florida said today the Democrats will make rent control and housing issues in the 1948 elections unless Congress takes satisfactory action at this session.

Senator Pepper and Mayor William O'Dwyer of New York City appealed to a Senate Banking subcommittee to extend rent controls to the middle of 1950. The committee is studying controls now due to expire February 29.

Senator Pepper said the Democratic minority in Congress will fight this year for a "decent rent control law" and a national housing program.

"If we lose," Senator Pepper said, "we are going to carry" the fight to the people in the 1948 campaign.

A statement by Mayor O'Dwyer was read to the committee by Maurice Finkelstein, member of the New York City Rent Commission.

Emergency to Continue.
 The mayor said that "at the rate at which new housing is now being provided, it is clear that the emergency will continue for at least another two years."

He said a general across-the-board rental increase "would cause more hardship than it would relieve. The result in many instances would be a bonanza for those operators who are now making a fair return. A flat increase would apply indiscriminately whether or not the owner needs relief."

Mr. O'Dwyer said New York City has adopted some control measures of its own, but "the Federal Government should assume responsibility (for such a program) in its entirety."

Both he and Senator Pepper recommended that Congress reimpose controls over residential hotels, houses covered by so-called voluntary leases and other units freed from controls in the law which became effective last July 1.

Dairymen See "Hysteria."
 A spokesman for dairy farmers declared, meanwhile, that demands for new price controls and rationing come from wrong thinking and "hysteria."

Charles W. Holman, secretary of the National Co-operative Milk Producers' Federation, said what this country should ration is exports.

He told the Senate Banking Com-

Woman, 80, Gets \$396 on Policy Forgotten in 1907

An 80-year-old Arlington woman

has received \$396 as beneficiary of an insurance policy she didn't know existed.

Mrs. Jessie Lapham of 3318 Twenty-third street north, Arlington, received the sum from the Mutual Life Insurance Co. of New York.

Company officials here explained that the policy was purchased 47 years ago by her late husband. They said he quit paying premiums in 1907, electing to continue paid-up value, and that no word had been received from Mr. or Mrs. Lapham since that time.

A recent check of paid-up policies led to the discovery that Mr. Lapham had died and that his widow was due to receive the \$396.

Public Parking Lots Urged for Bethesda

Montgomery County Commissioner Wesley I. Sauter today urged that public parking facilities be installed in the Bethesda business district.

Mr. Sauter said he favored a program in Bethesda similar to the one underway in Silver Spring, where several public parking lots have been acquired with the aid of an approximately \$750,000 bond issue. The issue is to be retired by a special tax levied on Silver Spring business properties.

The commissioner said he would discuss the proposal with the Bethesda Chamber of Commerce and would confer with the county legislative delegation. Special legislation was required for the parking lot bond issue in Silver Spring.

mittee the Government should set aside "minimum quantities of essential materials and commodities" for home use before permitting any shipments abroad.

"Such a program," he said "would assure the people that reasonable supplies for domestic use will be maintained in this country and would put an end to the incentive to bid up prices and build up inventories."

One of the principal arguments for price control, Mr. Holman asserted, is that it would head off another round of wage demands this spring.

"We believe the die is cast and no possible price action can compel or forestall such increases," he said.

Another banking subcommittee called afternoon hearings on bill by Senator Flanders, Republican, of Vermont to let the Agriculture Department prepare for meat rationing.

The Flanders bill would authorize the department to print ration books, but the program would have to wait for a go-ahead from Congress.

William Mosher Heads Queens Chapel Citizens
 William A. Mosher has been elected president of the Queens Chapel Citizens' Association.

Other officers named were John A. McLean, first vice president; Mrs. Ruth H. Slisson, second vice president; Mrs. Catherine B. Jordan, secretary, and William J. O'Brien, treasurer.

Clarence W. Herman and Glenn W. O'Neill have been elected directors.
